

From Nest To Wings

Start [Here](#), Go [Anywhere](#)

High School - College - University - Community College - Trade School
Preparation Program For Students and Families

From Nest To Wings is helping make the puzzle pieces fit.

The high school and college education landscapes are becoming more of a puzzle every day. **Keeping up with all that is changing and sharing that information with students and parents is the From Nest To Wings mission.**

Through weekly videos, a monthly newsletter, and twice-monthly video shorts that provide definitions for words and phrases used throughout the educational process, From Nest To Wings is available 24 hours a day, 7 days a week.

We are seeing success. We have had over 500,000 views of our 198 total videos and 68 definitions posted. Within the last year alone, Nest's YouTube and social media accounts received over 310,000 views.

Comments on Nest videos show that we are making a difference:

"This channel is criminally underrated"

"This is literally very motivating and optimistic."

"I feel like this one explained everything which I have to do!"

Here is where we can use your help. We need you to provide funding that allows us to continue to provide services and useful information to students, no matter their economic situation. Your donation is the missing piece of the solution to the educational landscape puzzle.

Go to NestToWings.org to find access to our services and all necessary information to financially support From Nest To Wings. The funds will be used to continue producing videos, definitions, our newsletter, and to support our research to stay current on trending and traditional topics.

Thank you!

***The From Nest To Wings Board of Directors
and Volunteer Staff***
