Please take this form and add or delete any topics to make this YOUR college list.

You can make a page for each school or track multiple schools on one page.

List as many specifics as possible to ensure you are making your college choice based on as much information as possible.

It would be best to be as specific as possible with the information you collect...especially regarding finances and deadlines.

Once you get into the college application phase, start a new application tracking form where you can list specifics of financial offers, the application process, and more. Go to NestToWings.org to find a sample application tracking form.

Have fun with your college list. Make it work for you.
